## CLADDING & ROOFING LTD.

### OCEAN TRADE CENTRE CLADDING CASE STUDY

Working as a sub contractor to our Sister Company, Insite Contracts Ltd. we were delighted to be involved in this negotiated project with FG Burnett. The project consisted of two terraced warehouse units off a common courtyard, with our contract element being the removal of the existing asbestos sheeting and profiled steel wall cladding and installing new composite Kingspan roofing and wall cladding panels complete with Mansafe rooflights to comply with current Building Standards.

As you can see the works transformed these 1980's units into a modern, efficient and economic environment which resulted in full tenancy before the works were completed.

CLIENT	CONTRACT ADMINISTRATOR	PROJECT TITLE	LOCATION	VALUE	PROGRAMME
Ocean Trade Centre	F G Burnett	Asbestos Roof Strip & Wall Cladding Replacement	Aberdeen	£490k	12 Weeks
