CLADDING & ROOFING LTD.

INSITE CONTRACTS LTD.
REFURBISHMENT CASE STUDY

In conjunction with our sister company, Insite Contracts, we were delighted to be appointed on this roll out contract for CSQ Consult as Springkerse Retail Park. The project consisted of the complete refurbishment of the existing unit facades including the demolition of the existing A frame entrance which was replaced with a new steel framed canopies and horizontal Microrib cladding by Kingspan. The project was on a very tight schedule with the surrounding units remaining in full occupation throughout the works.

We successfully completed the project, on programme and on budget.
