

INSITE CONTRACTS LTD.

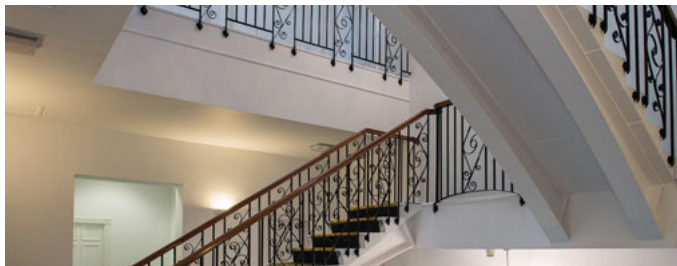

BDO LLP
REFURBISHMENT CASE STUDY

Working with Cushman Wakefield, this project, which boasts panoramic views over the River Clyde, was completed in 8 weeks and began with an extensive refurbishment of the external fabric, followed by the cosmetic refurbishment of the ground to 3rd floors.

With parts of the building still occupied, coupled by being surrounded by multi tenanted offices, who were extremely sensitive to noise nuisance, a flexible working approach had to be adopted to complete works in occupied areas, as well as noisy works being completed outwith normal hours.

Clear segregation was established throughout all operations to ensure we created as little disturbance as possible.
